## **POSITION DESCRIPTION - LIGHT VEHICLE MECHANIC**

We have an exciting opportunity for a reliable trade qualified motor mechanic with at least 3 years' experience. The right candidate will be responsible for providing excellent services to our customers.

The role will involve working on various vehicles as well as on light and medium commercial vehicles.

### **Daily tasks and responsibilities will include:**

- Diagnosing and finding faults
- Dismantling, checking, and repairing engines, transmissions, gearboxes, and steering wheels
- Reassembling engines and parts
- Performing logbook servicing on customers' vehicles to a high standard
- Checking and adjusting parts after repair to make sure of their proper performance

### **Qualifications:**

- The right candidate must be able to work without supervision, and within a small team environment
- Previous experience and trade qualifications are a MUST
- Experience in repairs and maintenance of various makes including European models
- Experience with light and medium commercial trucks will be highly considered
- Roadworthy License and Air-con License are a plus but not mandatory
- Manual driver's license
- Relevant Trade Qualification
- Must be well versed and have a broad experience on Light Vehicles
- Good communication skills
- Strong fault finding skills
- Ability to work as part of a team
- Electrical skills a bonus
- Extra skills, experience, tickets and licenses will be advantageous

### **Salary:**

From \$65,000 negotiable
